

Duct Suspension System

- ★ Designed to suit requirements of AS4254.1-2012 *Ductwork for air-handling systems in buildings Part 1: Flexible duct*
- ★ Registered Design 'quick clamp' clips
- ★ Quick release feature on clips allows duct position to be easily adjusted
- ★ Saddle designed to suit flexible duct from 150mm to 500mm diameter
- ★ Saddles come with pivoting belt mounted 'hook' for ease of access during installation
- ★ Strap comes in 60m rolls with belt mounted dispenser to stop tangling - dispenser also utilized to hang bags of clips for ease of access during installation
- ★ Fire resistant and UV protected

★ Tested to AS 60068.3.3 *Environmental testing: Guidance - Seismic test methods for equipment*. This standard details the test method for seismically testing ductwork fabrications. The system passed testing to Performance Level III with horizontal accelerations of 15 m/s² to a maximum of 32Hz

DSSS - Strap

DSSSD - Saddle
