

PLATINUM II ZONE CONTROL SYSTEM

8 ZONE AIR CONDITIONING CONTROL SYSTEM

*Year round comfort...
...every room, all seasons*

PERSONALISED SETTINGS

Program and name up to 8 personalised comfort settings. Use pre-stored room names or create your own.

COST EFFECTIVE INSTALLATION

Plug and use, quick and cost effective installation.

OPTIMISE PERFORMANCE

Improve and enhance the control of air flow temperature and comfort level from your air conditioner. Sensors and programmed 'relief zones' ensure your air conditioner always operates at its optimum performance level.

UPSTAIRS/DOWNSTAIRS CONTROL

2 touch screens can be used to operate the system, one located upstairs and one downstairs.

WIRELESS SENSORS

Sensors in each room provide continuous feedback to the zone control to maintain desired comfort levels.

ENVIRONMENTALLY FRIENDLY

Save energy while maintaining optimum comfort levels.

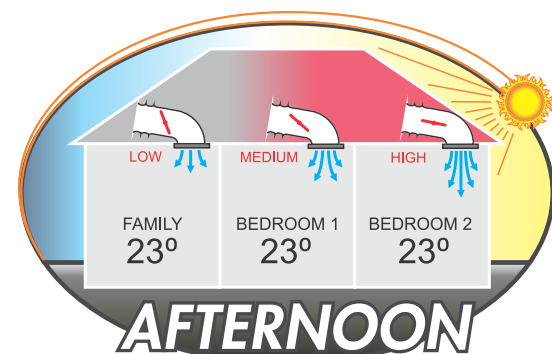

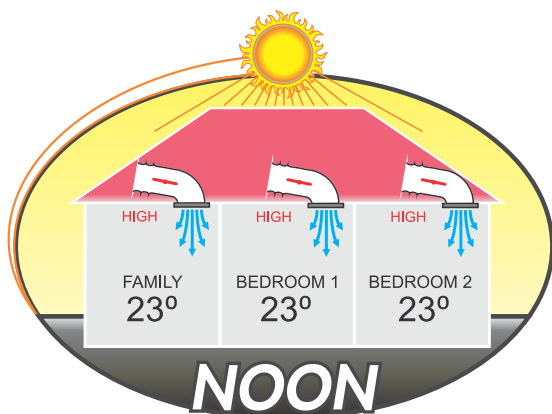

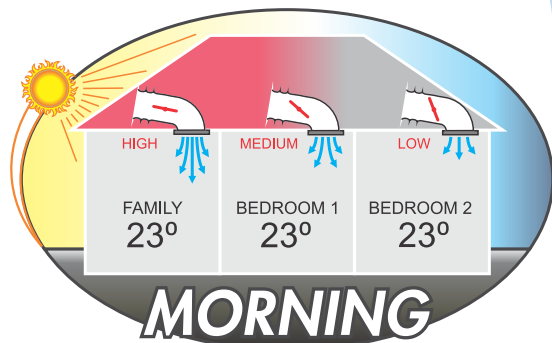

DESIGNED IN AUSTRALIA

Designed in Australia for Australian conditions. Tested and approved by a NATA approved test lab. RCM compliant.

PLATINUM II ZONE CONTROL SYSTEM

During the day as the sun moves through the sky the cooling requirements in the individual rooms in your home change.

Using the Platinum II Zone Control System, wireless sensors measure temperature in individual rooms, dampers adjust automatically and airflow is redistributed in order to maintain a constant temperature. Dampers can also be adjusted manually to suit personal preferences for individual rooms.

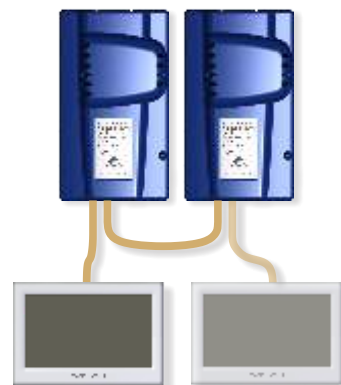

NEW TOUCH SCREEN
Easy to use touch screen makes set up and use simple!

NEW WIRELESS SENSOR
No more messy sensor cables!

16 ZONE FUNCTIONALITY
2 controls can be linked to create a maximum of a 16 zone system, using one or two touch screens

- ★ The Platinum II Zone Control System features Auto and Manual modes
- ★ Manual mode allows each damper to be set in one of 10 positions (including 'Off') to accurately control airflow to each room of your home.
- ★ Auto mode uses new wireless temperature sensors to monitor and maintain desired comfort levels in each room
- ★ Auto mode allows offset temperature settings to change the comfort level of one room relative to the temperature being maintained in other rooms.
- ★ 'Boost' function allows user to rapidly condition selected zones.
- ★ Manual override feature in Auto mode to assign a manual setting irrespective of rooms in Auto mode.

EZY DAMPER® ZONE DAMPERS
Available in a range of sizes with 10 blade positions for precise incremental control of the airflow
