

Architecturally Designed Polished Aluminium Grilles

ADSCD - SPUN CIRCULAR DIFFUSER

ADCD - CEILING DIFFUSER

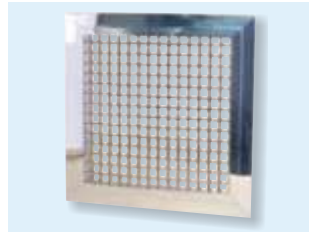

ADDD - DOUBLE DEFLECTION GRILLE

Architecturally Designed Polished Aluminium Grilles

ADLE - EGG CRATE GRILLE

Available in fixed core, loose core and clip-out removable core

Features

- ★ Aluminium lightweight construction
- ★ Ideal for exhaust and return air applications
- ★ Constructed of 12mm cubed lattice core in extruded frame

ADDG - DOOR GRILLE

Chevron blade door relief grille

Features

- ★ Aluminium lightweight construction
- ★ Telescopic adjustment to fit doors 29-48mm wide
- ★ For doors and partitions where finished appearance is required on each side

ADHCRC - HALF CHEVRON REMOVABLE CORE

Wall mounted return air grille

Features

- ★ Aluminium lightweight construction
- ★ Removable slide filters fitted where required
- ★ Removable core allows easy access to dampers
- ★ Suitable for return air and exhaust air applications

ADBG - BAR GRILLE

Fixed and removable core available

Features

- ★ Aluminium lightweight construction
- ★ Sections can be butted together for continuous installation
- ★ Blade profile 25 x 3mm aluminium flat bar with 6mm dia. rod and 25mm dia. aluminium spacer
- ★ Longer sizes supplied in section to appear as continuous
- ★ Alignment joining pieces supplied
- ★ Ideal for supply or exhaust applications
- ★ Blade spacing available at 5mm, 10mm & 15mm. (15mm is standard)

ADLS - LINEAR SLOT DIFFUSER

Adjustable blades

Features

- ★ Aluminium lightweight construction
- ★ Aerodynamically designed to ensure maximum airflow at minimum noise level
- ★ Wide linears supplied in sections to appear as continuous
- ★ Joining piece supplied to assist alignment

ADCFDD - CURVED FACE DOUBLE DEFLECTION REGISTER

Curved to suit radius or diameter specified

Features

- ★ Aluminium lightweight construction
- ★ Frame curved to suit spiro duct
- ★ Front core blades follow curve of face
- ★ Concave and convex curves available

ADCD - LOUVRE FACED CEILING DIFFUSER

Removable core supply air diffuser

Features

- ★ Aluminium lightweight construction
- ★ No spring or clips, inhibiting chance of rattle
- ★ Available in flush frame and bevel frame
- ★ No section protruding past neck allowing tight fit for adaptors

ADSCD - SPUN CIRCULAR DIFFUSER

Removable core supply air diffuser

Features

- ★ Aluminium lightweight construction
- ★ Removable core via positive centre screw
- ★ Three cone suitable for heating, cooling and ventilation
- ★ Adjustment of centre cone allows varying air patterns

ADCBM - MULTI DIRECTIONAL CURVED BLADE REGISTER

Supply air aluminium 4-way blow diffuser

Features

- ★ Aluminium lightweight construction
- ★ Core adjustable to allow varying combination of blow patterns (on removable core only)
- ★ Lift-out removable cores for easy installation and cleaning

ADHEF - HINGED EGGCRATE GRILLE WITH FILTER

Return air grilles with removable core and filter

Features

- ★ Aluminium lightweight construction
- ★ Constructed of 12mm cubed lattice core eggcrate in extruded frame
- ★ Filter (supplied as standard) removable for easy cleaning
- ★ Suitable for ceiling or wall mounting

ADDD - DOUBLE DEFLECTION WALL REGISTER

Removable core

Features

- ★ Aluminium lightweight construction
- ★ Horizontal and vertical blades allowing distribution adjustment
- ★ Blade adjustment in both directions
- ★ Support mullions fitted if blade length exceeds 600mm

PROUDLY AUSTRALIAN MADE - specially manufactured grilles can be made for unique applications
